

Viridian Corporation  
Casablanca HOA  
2014 Equinox Award Most  
Sustainable Community

**Location:** San Diego, CA  
**Size:** 27 Acres

**Team:**  
Viridian Corporation  
Advanced Onsite Water

Casablanca HOA goals are to align with City of San Diego decentralized, non-potable water recycling goals and recommendations. This included reduced total amount of imported water, increased total volume of recycled water, mitigation of environmental consequences, reduction of water use and provide non-potable reuse expansion. Sustainable and reliable water supply supports water conservation, advances decentralized wastewater reuse, includes drip irrigation and promotes existing water conservation strategies through educational outreach.

To date, the City of San Diego is currently in the Draft 2 phase of a regulatory policy to support the private sector in the above outlined water recycling efforts.

Please contact Sustainability Matters® for more information on how to incorporate more sustainable strategies into your built environment.
