

Qualcomm Pacific Center AY  
LEED Certification Pending

**Location:** San Diego, CA  
**Size:** 357,000 sq. ft.  
**Product Installed:** 100% Reused Walnut  
**Team:** BNIM Architecture  
PlanetReuse  
DPR Construction Inc.

As a global technology leader, Qualcomm had the opportunity to model how best to protect our natural resources within the built world. Sustainability Matters and PlanetReuse worked closely with BNIM Architects and DPR Construction to provide Qualcomm using innovative reuse strategies with large scale quantity specifications. Sustainability Matters proposed a material reuse solution with US sourced, 100% solid walnut. The value of the aesthetics of the reused material far surpassed the prefabricated option, for the same cost.

Please contact Sustainability Matters® for more information on how to incorporate more sustainable strategies into your built environment.
